2. **Searching screen** appears with:
3. Radar animation
4. Elapsed time counter
5. "Finding your perfect trainer..." text
6. **Cancel** button
7. The matching engine scores available trainers using:
8. Rating (25% weight)
9. Price competitiveness (15%)
10. Boost status (10%)
11. Responsiveness history (5%)
12. Profile completeness (5%)
13. Top 5 trainers notified simultaneously
14. **First trainer to accept wins** (atomic — no double-booking)
15. On match:
16. **Boxing-bell sound** plays
17. Trainer details appear (name, rating, price, photo)
18. **"Trainer Found!"** notification sent
19. If no match within 3 minutes:

- 20. Progressive wave expansion (additional trainers notified)
- 21. After timeout: **"No trainers found"** fallback with retry option

Buttons on searching screen: - **Cancel Search** — Cancels the request and returns home

Buttons on matched screen: - **Start Session** — Begin the virtual session - **Find Another** — Reject this match and search again

6.2 In-Person Instant Session

Button: "In-Person Now" on Home screen

Same flow as virtual but with location-based matching:

Wave Logic: - **Wave 1:** Trainers within 5 min ETA, top 3 by score - **Wave 2:** (if <2 matches) Trainers within 10 min ETA, top 3 - **Wave 3:** (if still <1) Trainers within 15 min ETA, top 5

Requires GPS permission. If denied: *"Location required to match you with a trainer nearby"*

6.3 Membership Priority

Members receive a +0.15 score bonus in the matching engine, meaning they get matched with higher-rated trainers faster.

7. GPS Tracking & En-Route

7.1 Starting En Route

For in-person sessions, the trainer taps **"Start En Route"** to activate GPS tracking.

Update frequency: - En route: GPS refreshes every **5 seconds** - In progress: GPS refreshes every **15 seconds** - Stops immediately on session end or cancellation

7.2 Live Tracking View

Both parties can see: - Trainer's live location on map - Trainee's location - Distance between parties (in miles) - Estimated time of arrival

7.3 GPS Alerts

Alert	Trigger	Message
Weak Signal	GPS accuracy > 50 meters	"Weak GPS signal — confirm location manually"
Stale Movement	Trainer stationary for 2+ min while en route	"You appear to be stationary. Are you on the way?"
Distance Warning	Parties > 0.5 miles apart during active session	"You are X miles from the other party"
Address Mismatch	Parties > 0.25 miles apart at session start	"You and the other party appear to be at different locations"

7.4 Arrival Confirmation

Trainer must tap **"Confirm Arrival"** to verify GPS proximity: - **Outdoor/Gym sessions:** Must be within **0.25 miles (400m)** - **At-home sessions:** Must be within **0.1 miles (160m)**

If too far away: *"You are X miles away. Must be within Y miles to start."*

7.5 Privacy

GPS is **ONLY active during:** - En route to session - Active session - Arrival verification

GPS is **NOT active** when the app is idle or outside a session.

8. Selfie Verification

Before an in-person session begins, both parties must submit a selfie to verify attendance.

8.1 Flow

1. Session status changes to Confirmed or En Route
2. **Both trainer and trainee** take and submit a selfie via the app
3. Each person sees the other's verification status:
4. "Trainer verified" / "Waiting for trainer"
5. "Trainee verified" / "Waiting for trainee"

6. Once **both selfies are submitted**:
7. "Both verified — session can start!" message
8. Session can proceed

8.2 Buttons

- **Take Selfie** — Opens camera
- **Submit Selfie** — Uploads selfie for verification
- **Retake** — Take a new selfie

8.3 Requirements

- Selfie must be a valid image (minimum 100 bytes)
- Maximum file size: 5MB
- Only session participants can submit selfies

9. Post-Session Summary & Sharing

After every completed session, a summary is automatically generated.

22. FAQ

Q: How quickly will I be matched with a trainer? A: The instant matching engine typically finds a trainer within 1-3 minutes. Members get priority matching for faster results.

Q: What happens if no trainer is available? A: The system progressively expands the search radius over 3 minutes. If still no match, you'll see a "No trainers found" message with a retry option.

Q: Can two trainers accept the same request? A: No. The system uses atomic first-accept-wins logic — only the first trainer to accept gets the session.

Q: How is my location used? A: GPS is only active during en-route and active sessions. It is never tracked when the app is idle.

Q: What if my trainer doesn't show up? A: You'll receive a full 100% refund. The trainer receives a performance strike. After 3 strikes, their account is reviewed.

Q: Can I cancel for free? A: Yes, if you cancel more than 12 hours before the session. See Section 14 for full cancellation policies.

Q: How are calories calculated? A: Based on your trainer's specializations and session duration using established exercise science averages (see Section 9.2).

Q: What does a membership include? A: 10% off all sessions, priority matching, 1 free boost/month, and a member badge. \$19.99/month.

Q: How do boosts work? A: Boosts increase your visibility in search results and the matching engine. You can track impressions, views, and clicks in your analytics dashboard.

Q: How do I get paid as a trainer? A: You earn 75% of each session. Request a payout from your Earnings tab — processed via Stripe.
